### ISU

"Each bike is painted in one of ISU's two school colors, red or white. White bikes will be reserved for faculty and staff and stationed at high-traffic buildings. They're meant for commuting on campus. Red bikes can be borrowed for up to 48 hours at a time by people who show valid student identification at Bone Student Center."

Abandoned bikes refurbished. 25 bikes for initial program. Use student ID to check them out. Startup costs: \$4,500.

"The ISU College of Applied Science and Technology and the University Health Education Coordinating Committee gave small grants to help meet the estimated start-up cost of \$4,500."
