University of Chicago Follow Up

Added by Kenney, Grace Rebekah, last edited by Kenney, Grace Rebekah on Jun 27, 2011

Hi Grace,

Great to meet you today. Attached, please find our current program waiver---note however that we will be updating it this summer to reflect program fees that a user may incur. I also included the current program usage policy, which details the more rigorous fee schedule that we introduced last year.

I can also provide the following costs for the program:

- Capital Costs
 - o Approximately \$25,000.00 for 20 bicycles including locks, software, marketing & design.
- Recurring Costs (annually for 22 bikes)
 - o Approximately \$34,000.00 for program coordinator, part-time bike mechanic, replacement parts, website hosting & support, marketing.

I hope this helps! I look forward to seeing how the potential program shakes out on your campus.

Colleen
