Dear Dr. Wortman,

University Dining Services is dedicated to support this new academic mission in collaboration with ACES and fully support the funding of this grant for the Campus Community Garden. We see this new endeavor as a continuation and a strengthening of our partnership with Crop Science. The fresh and locally grown produce will enable University Dining Services to continue increasing the quantity of locally sourced foods and more sustainably grown foods.

We commit to purchase and utilize the high quality produce that they will supply to our Residential Dining and Catering programs.

We look forward to working with you.

Sincerely,

Dawn Aubrey
