

iWG Assessment

SWATeam Recommendation Ref #: PWR011 SmartWay Union

Date of iWG Assessment Started: 05/10/2018

Assessment Completed: 08/27/2018

Original SWATeam Recommendation: We recommend that Facilities and Services and the Illini Union become certified as an EPA SmartWay Logistics Company Partner, following the example set by University Housing and Dining Services in 2013.

iWG Assessment of budget and policy impacts (*check one*):

moderate budget and/or policy impact OR major budget and/or policy implications

iWG Routing Need (*check one*):

more detailed study OR transmit recommendation OR forward to Sustainability Council

iWG Routing Direction (*department name, SWATeam, or Council*): Lowa Mwilambwe (Student Affairs), and Mohamed Attalla (Facilities and Services)

iWG Recommendation: We agree that F&S and the Illini Union should participate EPA SmartWay Program. EPA has identified someone to assist with considering options for how to participate.

Individual comments are required from each iWG member (can be brief, if member fully agrees):

iWG Member Name	iWG Member's Comments
Ximing Cai (iSEE)	I support this recommendation. Along with Housing and Dining Services, these units will provide more support to the national EPA program.
Morgan White (F&S)	F&S Stores will consider implementation.
Larry Uphoff (Student Affairs)	I support this recommendation.
Matthew Tomaszewski (Provost's Office)	I support this recommendation
Scott Willenbrock (Provost Fellow)	This seems like a good idea. However, I believe the appropriate category is SmartWays Shipper Partner.
John Dallesasse (Academic Senate)	I support this recommendation.
Nick Heyek (Student Sustainability Committee)	I support this recommendation
Sean Reeder (OBFS)	I support this recommendation and am unsure of the appropriate category.
Rob Fritz (college-level facility manager)	I support this recommendation

Joey Kreiling (Student Sustainability Leadership Council)	SSLC supports this recommendation. The SmartWay program encourages low-emission transportation on campus, and that is a clear objective of iCAP.

Attach any comments from subject matter experts (with names and roles).

Comment from past SSLC co-chair Matt Moy:

As we discussed earlier in the Spring semester, I support this recommendation with the caution that we make sure we get certified under the correct category, which I believe is the SmartWay Shippers, as per the description on their website: <https://www.epa.gov/smartway/participate-smartway>

- [SmartWay Shippers](#) are companies and organizations that ship or receive freight.
- [SmartWay Carriers](#) are companies that carry or move goods for shippers.
- [SmartWay Logistics Companies](#) are companies that hire freight carriers and manage freight shipments for shippers.
