Project Information

Please provide a brief background of the project, the goals, and the desired outcomes:

Our goal would be to replace two water fountains within the Illini Union with Elkay fountains. Elkay fountains contain an attachment that allows for convenient filling of water bottles. Since the implementation of numerous Elkay fountains within the Union we have been able to save thousands of plastic water bottles from being deposited in landfills. The presence of these fountains in the Union encourage students to utilize reusable water bottles.

Please provide a brief summary of how students will be involved in the project:

The Illini Union Board will serve as integral part of this process. IUB is a student lead board that works very closely with the senior leadership team of the Union. IUB will be able to monitor the success of the project and relay the information to the Director and supporting staff of the Illini Union.

Please provide a brief summary of the project timeline:

The water fountains would be installed in the Fall of 2018.
