Mr. Tracy Osby:

Thank you for your interest in a new 2-ram baler to replace your HRB-511N. The Harris Badger L75S-2-10/7 would provide great processing capabilities and bale densities. The Badger offers a more efficient hydraulic system, automated user-friendly operator controls, operation/maintenance-friendly design, etc. The baler also includes a vastly improved wire tier which dramatically simplified maintenance. We are pleased to offer you the Badger with the following specifications.

1 - Badger L75S-2-10/8 two-ram baler. Complete with a 75 HP 3 phase 460 volt motor, 10" bore main cylinder and 8" bore eject cylinder. Produces high density bales that measure 46" x 31" x 61" and weighing up to 1,500 lbs. OCC. Charge box opening 85" long x 42" wide. Includes L&P Pinnacle or 340-series auto-tier, motor starters, disconnect switch, pushbutton operators, oil cooler & heater. Also includes the following options from your current HRB, combo bale release - bale separation door, hopper extension and bale run-out table. (Less Oil)

Price	\$293,335
Warranty	1 year parts
F.O.B.	Baxley, GA
Availability	12 weeks from receipt of signed sales order & deposit
Terms	50% down, balance prior to shipment
