Dear Brent, Ryan, and Morgan,

Congratulations and many thanks to you and your team for the efforts that led to a fifth consecutive year of recognition as a Tree Campus USA.

This honor is some much-needed good news this semester. And I believe that in these long days of social distancing and stay-at-home orders, our faculty, staff, students and visitors will have a new-found appreciation and gratitude for our campus trees and natural spaces.

Please share my gratitude and congratulations on this award with your team.

Sincerely,

Robert J. Jones  
Chancellor
