Student Sustainability Committee

Re: Request for funding from the UIUC Sustainability / Clean Energy Technology Fees
Project: Measuring Sustainability Metrics of the Green Roof on the New Business Instructional
Facility

Applicant: Charles J. Werth

Dear Charles:

On behalf of the Student Sustainability Committee for the University of Illinois at Urbana-Champaign, I would like to thank you for responding to our call for proposals to use funds raised by the student Clean Energy Technology and Sustainability Fees to implement a project that improves the sustainability of our campus. Each proposal was evaluated based on its sustainability impact (i.e. energy or sustainability impact, campus presence, project longevity, and budget) and broader impact (i.e. education and creativity).

The Committee is pleased to inform you that we are recommending to the Office of Sustainability that your project (to support class projects to assess the impact on sustainability of the green roof atop the new Business Instructional Facility) be **funded in full in the amount of \$13,100, with the following requirements:** 1) that the Committee be provided with a copy of all final class reports and presentations, 2) that the final class presentation be open or held as a seminar, 3) that any publications using data collected in the course of the project indicate the committee's support, and 3) that the project be completed by February 2010, and any unspent funds revert back to the Student Sustainability Committee. If the project is not completed by the target date, you may apply for an extension. If you have any questions regarding these requests, please contact us at sustainability-committee@uiuc.edu

The Committee will contact you when the Office of Sustainability officially approves this project. At that point, we will discuss the Committee's protocol for financial and progress management to complete this project, and make arrangements for transfer of funds. As previously discussed, semesterly updates and account statements describing how funds are being used will be required in addition to a final report on project completion.

Again, thank you for your interest in improving the sustainability of the University of Illinois at Urbana-Champaign. We look forward to working with you in the future.

Sincerely,

Suhail F. Barot
UIUC Student Sustainability Committee, Chair
